Applicant's election with traverse of Group II in the reply filed on 12/22/04 is acknowledged. The traversal is on the ground(s) that a generic claim has been added that links all the method "means" claims. This is not found persuasive because new claim 307 is not a linking claim and is not in proper dependent form. Furthermore, claim 307 does not address the method of Group II. Applicant's reference to section MPEP 809.02 (e) deals with a restriction between difference species of an invention rather than restriction between different inventions as was made in the present restriction requirement. With regard to section MPEP 809.03, applicant does not have a claim that meets the definition of the linking claims given in the section (i.e. (A) is a claim linking multiple embodiments or species of an invention not multiple inventions and (C) is a "means" that links process and apparatus not multiple methods).

The requirement is still deemed proper and is therefore made FINAL.

Claims 1, 162, 163, 292-295, 297/294, 299-309 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 12/22/04.

Claims 126, 187-188, 277-279, 281-291, 296, 297/296, 298 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to the parent claims in the alternative. See MPEP § 608.01(n). Accordingly, the claims 126, 187-188, 277-279, 281-291, 296, 297/296, 298 have not been further treated on the merits.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 195-196, 199-204, 206, 219, 272-276 and 280 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 272 is indefinite due to the reference to Figures 6, 6a and 11 at lines 5 and 7. It is not clear how the reference to these figures is intended to impact the scope of the claimed invention.

Claims 195-196, 199-204, 206, 219, 272-276 and 280 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
